CONFERENCE FOCUS

The 11th International All for Power Conference will once again focus on nuclear and conventional power plants in the context of planned construction and upgrades of existing sources. Heating and industrial energy sectors will not be left aside. Last year we added a section dealing with the development of the Iran energy sector to the conference agenda. This year we are thinking about adding a new, interesting foreign market. The conference will be accompanied by a traditional exhibition of products and services delivered by contractors.

KEY TOPICS

- > planned projects/investments in nuclear energy in the Czech Republic, Slovakia
- > implemented and planned projects/investments in conventional energy in the Czech Republic, Slovakia
- > industrial power energy
- > EU directives and impact on power sector
- > foreign section (projects/investments): Egypt and other countries

CONFERENCE OBJECTIVE

The objective of the conference is to create room for meetings between investors and contractors. And also to map the real capacities and expectations of both groups.

TARGET AUDIENCE

The conference is attended by the representatives of these entities:

- > utilities
- > energy sector contractors
- > engineering and construction companies
- > information and telecommunication technology
- > investment groups
- > financial institutions
- > consultants
- > lawyers
- > public and state administration
- > EU institutions
- > embassies
- > foreign missions of the Ministry of Industry and Trade
